

Learning solutions for today's businesses

Provide today's diverse employees with the flexible professional development, training, and online learning solutions they need to succeed.

What we offer

Meet your learners wherever they are. And in the ways that work best for them. With **Anthology® Blackboard**, training content and courses are accessible from anywhere and at any time. Make training efficient and keep employees and contractors engaged with this powerful business learning management system (LMS). Easily and confidently build courses with a solution that seamlessly integrates with HR software.

Want to manage the full lifecycle of learning information and assess learning outcomes in meaningful ways? Our comprehensive **Registration and Management** for Blackboard solution handles course registrations, reporting, e-commerce, and user & data management, all in a user-friendly and intuitive interface.

Greater access for all means greater success for all. **Anthology® Ally** ensures that course content and information are accessible to all learners. With the press of a button, access is simple, seamless, and straightforward, including translations into 100+ languages.

Launching a new online training program? Growing an existing one? Our **implementation and strategic consulting services** support you with the technology, expertise, and training you need to succeed.

Web security

We have a long-standing and strong commitment to providing secure solutions to our customers. Blackboard is hosted on Amazon Web Services (AWS) to ensure security in the cloud.

Utilizing Blackboard, there were a lot of benefits, not just the cost savings from a travel standpoint, but the additional work time the learners get in the field. And with blended learning, each learner is better prepared for the in-person class and has continued access to their learning materials and peer cohorts.”

Tony Gagliardo

Area Vice President Enterprise Nuclear & Technical Learning | Xcel Energy
