

The LMS for easier teaching and better learning

Blackboard® is innovating faster than any other LMS available to provide a flexible, insightful, and inclusive learning environment that responds to the needs of modern learners, instructors, and institutions.

Empower instructors with AI and other time-saving capabilities

Free up instructors' time with an LMS that reduces their administrative burden. We have redesigned Blackboard with features that streamline tasks, such as the AI Design Assistant for building engaging courses faster than ever. 95% of instructors say it saves them time!

- AI-inspired course and assessment creation
- NEW Flexible Grading Interface
- Deep integrations with hundreds of teaching tools
- Native plagiarism checking
- Personalized notifications to highlight urgent tasks
- Native video recording capabilities

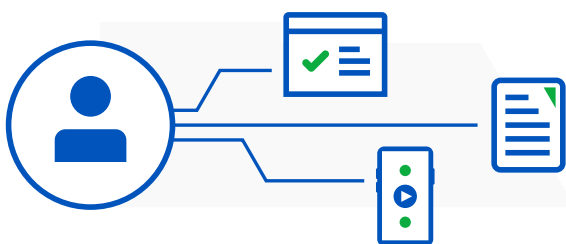

"Blackboard's AI Design Assistant has taken a task which might have taken me a full day down to a few minutes."

—Dr. Steven Montagu-Cairns, Associate Professor in Law, University of Leeds

Deliver personalized, flexible experiences for all learners

No two learners are the same, so Blackboard enables you to provide flexible, inclusive, personalized learning environments that respond to each individual's needs and goals.

- Advanced accessibility and alternative format generation
- Accessibility reports
- Self-expression features
- Test features that reduce learner stress
- Badging
- Support for CBE and Mastery Learning

Close the loop between insights and action

Now you can easily understand learner progress at an individual, course, or institutional level and use these insights to drive student success. Blackboard surfaces useful data natively within student and instructor workflows, helping identify learners who need help and providing a clear path to action.

- In-line insights and progress tracking for all users
- Insights into feature and content adoption
- Accessibility reports
- Aggregated data platform
- Course evaluations
- Assessment management

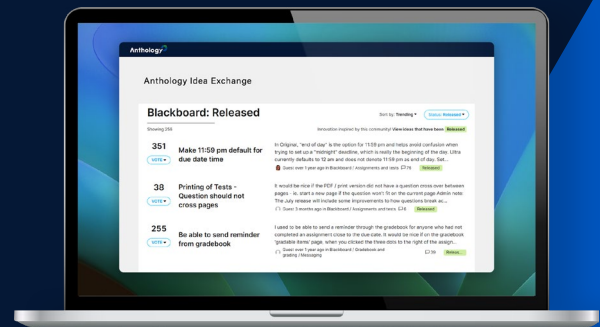

Make the most of your LMS with expert support and guidance

Blackboard delivers a seamless experience for all users, right from day one. Our team guides you through each step of the transition and then provides timely expertise and support to help ensure that you get the most out of your solution.

- Detailed implementation assistance
- Bulk course conversion
- 24/7 end user and admin support
- Targeted adoption campaigns
- Training resources and vibrant user community
- Ongoing professional development opportunities

Be part of product development and innovation

In both 2022 and 2023, Blackboard released more new features than D2L and Canvas. Via the [Anthology Idea Exchange](#) our global community directly informs product development, and we've released **450+** user-requested features in the last two years alone.

“We love the Anthology Idea Exchange!”
 —Eric LePage, Executive Director, Teaching and Technology Centre, Bridgewater State University
