Anthology Corporate Logo Guidelines

Primary Logo

Full-color logos should be used whenever possible. The black version should only be used on white backgrounds and the white version should only be used on black backgrounds. The logo should not be altered in spacing, color, or proportion. The typefaces within the logo are to be used exclusively within the logo design.

Primary Logo Matrix

These one-color logos are reserved for special use cases. Some examples include:

- When the logo *must* be placed on a color other than black or white
- A one-color screen print
- A greyscale or black and white image
- An extremely busy layout in which adding any more color would distract from the overall design
- When printing full color gradient is not possible

Solution Name and Trademarks in Running Text

Include the appropriate trademark symbol for the first mention of a solution name in running text UNLESS the trademarked solution logo is included. In that case, the logo already includes the trademark symbol, so no additional symbol is needed. The mark may be dropped after the first reference.

Use **Anthology® Blackboard** in longer-form assets, including press releases, datasheets, white papers, etc. After the first reference, simply use Blackboard (with no symbol).

For shorter-form assets, such as social media images and post copy, use **Blackboard®** instead of Anthology® Blackboard.

Please note: “Learn” should no longer be used. Also, “Ultra” should only be used when necessary as a general description and never as part of the solution name. For example, you might refer to “making the move from Original to Ultra,” but you should never say “making the move to Blackboard Ultra.”

It is also acceptable to use Original or Ultra in parentheses following Blackboard if you need to reference a specific version or differentiate between them. For example, you may write “When we implemented Blackboard® (Ultra), our instructors reported drastic time-savings.”

Solution Capabilities

All core and premium solution capabilities within our flagship solutions (such as Anthology® Ally, Anthology® Evaluate, and Anthology® Milestone) should be referenced in text only. The only logos that should be used are Anthology (corporate) or the associated flagship solution mark (Blackboard, Student, or Reach).

The background consists of several overlapping triangles in various shades of blue and green. A large teal triangle is in the upper right, a bright green triangle is in the top right corner, and various shades of blue (from dark navy to bright blue) form the rest of the background.

Anthology Student and Anthology Reach Logo Guidelines

Include the appropriate trademark symbol for the first mention of a solution name in running text UNLESS the trademarked solution logo is included. In that case, the logo already includes the trademark symbol, so no additional symbol is needed. The mark may be dropped after the first reference.

Anthology® Student

Anthology® Reach

After the first reference, drop Anthology and simply refer to Student or Reach (with no symbol).

Please note: When representing Anthology (not just Anthology Student and/or Anthology Reach), use the Anthology corporate logo instead of the solution logo(s).

The background consists of several overlapping geometric shapes. A large dark blue triangle is on the left, pointing downwards. A large teal triangle is on the right, pointing upwards. A bright green triangle is at the top right, pointing downwards. The text is centered over the dark blue triangle.
