

## Cultivate a dynamic campus community through robust co-curricular experiences

Anthology® Engage brings your campus together around the shared goal of fostering transformative student experiences. Streamline co-curricular engagement, connect students to meaningful experiences, and leverage data-driven insights to elevate your engagement and retention strategy—all in one centralized, mobile-enabled platform.

### Connect learners to meaningful experiences

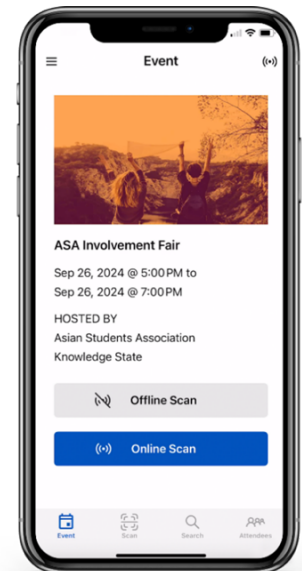

Help students navigate their co-curricular journey with ease. Anthology Engage serves as a centralized hub where learners can discover student organizations, explore involvement opportunities, and participate in events that align with their interests. By creating a sense of belonging, Engage empowers students to connect and thrive within their campus community.

### Simplify work for Student Affairs professionals

Focus on student success, not administrative tasks. Anthology Engage streamlines event management, student organization oversight, and engagement tracking with intuitive workflows and digital processes. With automated approvals, attendance tracking, and centralized reporting, Student Affairs professionals can spend less time on paperwork and more time creating meaningful experiences for students.

### Empower data-informed storytelling

Transform student engagement data into actionable insights. With robust analytics, Anthology Engage enables institutions to measure involvement, assess program effectiveness, and make data-driven decisions. Our Event Check-In App builds a culture of attendance tracking—even when connectivity is not available with offline mode—helping institutions capture reliable engagement data that highlights trends and demonstrates learning outcomes.

### Inspire collaboration across campus

Break down silos and create a unified engagement experience. Anthology Engage's flexible structure empowers departments across campus to manage their unique programs while working together within a shared platform. Seamless integrations with other Anthology solutions and key partners like GivePulse, TurboVote, CollegeNET, EMS, and Ad Astra provide a holistic view of student engagement, allowing for cross-campus collaboration and driving student success.

# The best student experiences are powered by Engage

**10,000,000+** events managed and promoted in the platform

**137,000+** active organizations managed in the platform

**500+** institutions, **24 million** active users

Trusted and time-tested **since 2004**

## Institutions that use Anthology Engage

*“Anthology Engage has changed the narrative that only a fraction of students are engaged to an understanding that the majority of students are engaged—done specifically through the data we were able to gather and leverage. We are now using this data as part of individual outreach to help all students thrive.”*

— **Evan R. Heiser, Ed.D.**,  
Senior Director of Career and Experiential Education,  
Western Michigan University
